It's easy to make soft serve and frozen yogurt. Start with a Taylor freezer, add the mix of your selection from your local dairy or other supplier, freeze it down and in a few minutes you're ready to serve, when your customers want it. Taylor's state-of-the-art technology produces consistent quality, draw after draw. That's why Taylor freezers are used more often every day than any other brand in the world.

You can select from a variety of models and styles with varying capacities. Taylor offers floor models, counter top units, dual flavors with twist capabilities and space saving units to fit your specific requirements.

Use the chart below to calculate your additional profit potential when adding soft serve to your menu.

SOFT SERVE ICE CREAM (4 OUNCE)	SAMPLE FIGURES	YOUR FIGURES
Selling price	$ 1.25	$
Less food cost	– .25	–
Profit per cone	$ 1.00	
Multiply servings per day	x 40	x
Profit per day	$ 40.00	$
Multiply days open per week	x 7	x
Profit per week	$ 280.00	$
Multiply weeks open per month	x 4	x
Profit per month	$ 1,120.00	$
Multiply months open per year	x 12	x
Profit per year	$ 13,440.00	$

Note: Costs and profit projections are based on approximate national mix cost averages.

The Taylor worldwide distributor network offers the most complete line of equipment, factory trained service, full parts inventory, merchandising programs, support materials, financing and leasing capabilities to meet your needs. If your business is a restaurant, an ice cream shop, or you're looking for an add-a-business concept, your Taylor distributor can demonstrate how easy it really is.

As foodservice experts, they can help you develop mix programs, flavor choices, show you merchandising techniques and more, everything you need to really make your business grow.

So why wait? Call toll free today.
