Carat Eco BY EXPOBAR

With innovative design and technology we have created an eye-catching machine with genuine quality. Being one of the market's most energy efficient espresso machines the **Carat Eco** is fully adapted to modern environmental requirements as well as each and everyone's interest in a clean and healthy lifestyle. **Carat Eco** automatically learns how you use it and it adapts its energy consumption after that. In this way the machine is always ready when you need it and when you are not using it is automatically switching to energy saving mode. Good for both the environment and your wallet.

* Available in black and white (White model shown)

TECHNICAL INFORMATION

Facts	CARAT ECO 2 Groups
Power requirement:	15 amp
Heating element power:	3050 watts
Heat exchanger size:	2 x 450 mls
Copper steam boiler size:	11.5 ltrs
Hot water outlet:	1
Steam outlet:	2
Steam pressure gauge:	Included
Pump pressure gauge:	Included
Pump type:	Rotary
Weight (kgs):	65

DIMENSIONS

Width: 774
Height: 620
Depth: 563
